

SEC Implications in 2023: Strategic Advantages of Adopting Strong Cybersecurity Protocol

Location

Webinar

Date & Time

Start Date: 10/31/2023

Start Time: 12:00 pm

End Time: 12:30 pm EDT

In light of Cybersecurity Awareness Month, COSECURE has kicked off a four-part series offering insight into the July 2023 rule issued by the Securities and Exchange Commission (SEC) requiring the disclosure of cybersecurity incidents and cybersecurity risk management, strategy, and governance by public companies. While the rule has the most significant impact on public companies, it's vital that private companies considering IPO or subject to a merger or acquisition with a public company take heed, as well.

This webinar, led by **Dr. Ronald Menold**, Director of Cybersecurity Services at COSECURE, will culminate the series, highlighting some of the most significant parts of the ruling that lawyers and business leaders should keep in mind, delving more into why both private and public companies should care, and providing next steps for all to take.
